

BURNING FOX GAMES

Polar Bear Rescue - A new kind of puzzle game

Rescue the polar bear and bring him home safely

Frankfurt am Main / Germany, May 24th, 2021: Burning Fox Games releases a new type of puzzle game "Polar Bear Rescue" for gamers of all ages.

In the puzzle game "Polar Bear Rescue" a little polar bear must be rescued from ice blocks floating in the sea and brought back safely to the mainland. The goal is to connect various wooden bridges in different levels to find a way to save the bear. The levels gradually increase in difficulty and unlock new worlds as well as pictures of polar bears in their natural habitats.

"It was important to us to create a game that is both fun and fosters logical and three-dimensional thinking for all ages." Nils Schergens, founder of Burning Fox Games, tells us. "At the same time, we also want to draw attention to the critical situation of polar bears due to climate change."

Our game is available now for free in the Google Play Store. A release in the Apple App Store and Amazon appstore is planned soon.
